

Try doing the following things to assist with dictating and navigating through the fields. Open Fluency Reporting User Preferences (wrench icon in upper left > Update Preferences):

1. Select Field Navigation and click the first box to use tab/shift tab to switch between fields:

2. Next, assign a hotkey to Start/Stop dictation under the Keyboard Function Keys:

This way, you can toggle through field using the tab/shift tab keys and then turn dictation on/off using F1 like a deadman switch.
